

MOHIB UR REHMAN

FULL STACK DEVELOPER

Rawalpindi, Pakistan • +92 333 8052 583 • rajamohib9@gmail.com • [LinkedIn](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 3+ years of production experience architecting and delivering scalable web and mobile applications. Proven expertise in React.js, Next.js, React Native, Node.js, NestJS, and Django REST Framework, along with RESTful API development, real-time systems (WebSockets), and blockchain/Web3 integrations. Consistently ships clean, maintainable code aligned with Agile best practices. Experienced in building full-stack portals, dashboards, HRMS systems, and cross-platform mobile applications for teams of 20-100+ users.

CORE COMPETENCIES

React.js • Next.js • TypeScript • Node.js • NestJS • Django REST Framework • REST APIs • WebSockets • MongoDB • PostgreSQL • Redux Toolkit • Tailwind CSS • React Native • Agile/Scrum • Git • Docker • AWS

WORK EXPERIENCE

Full-Stack Developer

November 2025 - Present

Silverthread Labs | Rawalpindi, Pakistan

- Architected and shipped a full-stack Office Management Portal using Next.js (TypeScript) and NestJS, streamlining internal workflows for 20+ staff members and cutting manual admin time by approximately 30 percent.
- Engineered role-based authentication with 5 permission levels and Tailwind CSS responsive UI, eliminating unauthorized data access incidents.
- Designed and optimized scalable RESTful backend APIs for user and data management, achieving consistent sub-200ms response times under concurrent load.
- Contributed to a Blockchain-Based Web Game (Next.js and Python backend); integrated smart contract interactions and implemented WebSocket state synchronization for low-latency multiplayer gameplay.

Tech Stack: Next.js, NestJS, TypeScript, Tailwind CSS, WebSockets, Python, Blockchain

Full-Stack Developer – Mobile & MERN Focus

January 2025 - November 2025

Kryptohive | Rawalpindi, Pakistan

- Developed a barber-booking mobile app (Expo React Native, Redux Toolkit, Django REST Framework) enabling real-time appointment scheduling with intuitive UI flows.
- Engineered a custom HRMS platform (Next.js, Tailwind CSS, Chart.js, Django REST Framework) with analytics dashboards and employee management tools supporting 100+ employee records.
- Integrated Excel export and import features into the HRMS for HR reporting, payroll data management, and bulk employee record handling.
- Built an AI prompt generator app (Expo React Native, Redux Toolkit, Django DRF) integrating 5+ AI model APIs with a clean, performant mobile UI.

Tech Stack: React Native (Expo), Redux Toolkit, Next.js, Django REST Framework, Chart.js

Full-Stack Developer

June 2024 - January 2025

Kryptohive | Rawalpindi, Pakistan

- Spearheaded development of a Web3-based MOBA game (PixiJS, React.js, Colyseus, Django REST Framework) with real-time game rendering, NFT crafting, and blockchain asset management.

- Implemented secure RESTful API endpoints and real-time data flow between frontend and backend, integrating Web3.js smart contract logic for on-chain player interactions.
- Optimized backend performance to sustain low-latency gameplay across multiple concurrent WebSocket sessions.

Tech Stack: *PixiJS, React.js, Colyseus, Django REST Framework, Web3.js, WebSockets*

Front-End Developer

June 2023 - June 2024

Kryptohive | Rawalpindi, Pakistan

- Delivered a full-featured eCommerce platform (React.js, MUI, Redux Toolkit) with multi-vendor marketplace support and dynamic product management.
- Built and deployed the company's official website (Next.js, Tailwind CSS) with a focus on Core Web Vitals, SEO optimization, and responsive design for all screen sizes.
- Implemented reusable component library and scalable state management architecture, reducing future feature development time significantly.

Tech Stack: *React.js, MUI, Redux Toolkit, Next.js, Tailwind CSS*

Blockchain Developer

February 2023 - June 2023

Kryptohive | Rawalpindi, Pakistan

- Developed Ethereum-based coin management systems with real-time performance tracking and analytics using NestJS, Next.js, MongoDB, and Tailwind CSS.
- Integrated a custom Telegram bot for automated real-time coin updates and management alerts, reducing manual monitoring overhead.

Tech Stack: *NestJS, Next.js, MongoDB, Tailwind CSS, Telegram Bot API*

Front-End Developer (Intern)

November 2022 - January 2023

Kryptohive | Rawalpindi, Pakistan

- Developed and deployed a real-time attendance management system and a responsive dating web application using Vue.js, React.js, and Redux Toolkit.
- Strengthened expertise in component-based architecture, state management, and front-end performance optimization using Next.js.

Tech Stack: *Vue.js, React.js, Redux Toolkit, Next.js*

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, HTML5, CSS3, SCSS

Frontend: React.js, Next.js, Vue.js, Redux Toolkit, MUI, Tailwind CSS, Chart.js, PixiJS

Backend: Node.js, Express.js, NestJS, Django REST Framework, REST APIs, WebSockets, Firebase

Mobile: React Native (Expo), Redux Toolkit, Django REST Framework

Databases: MongoDB, PostgreSQL, Firebase Realtime Database, MongoDB Atlas

Blockchain / Web3: Ethereum, Smart Contracts, Web3.js, NFT Game Mechanics, Telegram Bot Integration

Office & Excel: Microsoft Excel (formulas, pivot tables, exports), Word, PowerPoint, Office 365, Excel automation and reporting

DevOps / Tools: Git, GitHub, Postman, VSCode, Jira, Trello, AWS, Docker, Heroku, CI/CD

Methodologies: Agile, Scrum, REST API Design, Microservices, Responsive Design

EDUCATION

BS Computer Science

NUML Islamabad | Islamabad, Pakistan | February 2018 - January 2022

SELECTED PROJECTS

Office Management Portal

Next.js, NestJS, TypeScript, Tailwind CSS, Role-Based Auth

- Full-stack portal streamlining workflows for 20+ staff members with secure role-based access control across 5 permission tiers, responsive across desktop and mobile.

Tech Stack: *Next.js, NestJS, TypeScript, Tailwind CSS*

Custom HRMS Dashboard

Next.js, Chart.js, Redux Toolkit, Django REST Framework, Excel Integration

- Analytics-driven HR platform managing 100+ employee records with custom dashboards, payroll exports to Excel, and responsive mobile-first design.

Tech Stack: *Next.js, Chart.js, Redux Toolkit, Django REST Framework*

Web3 MOBA Game

PixiJS, React.js, Django REST Framework, Web3.js, Colyseus, WebSockets

- Multiplayer blockchain game with real-time rendering, NFT crafting, and smart contract interactions for concurrent players.

Tech Stack: *PixiJS, React.js, Colyseus, Web3.js, WebSockets*

Barber Booking Mobile App

Expo React Native, Redux Toolkit, Django REST Framework

- Real-time appointment scheduling app connecting users with nearby barbers, fully responsive on iOS and Android.

Tech Stack: *Expo React Native, Redux Toolkit, Django REST Framework*

eCommerce Marketplace

React.js, MUI, Redux Toolkit

- Multi-vendor eCommerce platform with dynamic product management and responsive design for laptop and mobile.

Tech Stack: *React.js, MUI, Redux Toolkit*

Multiplayer Word Guessing Game

Next.js, WebSockets, NestJS

- Real-time multiplayer game with low-latency WebSocket state synchronization for concurrent players.

Tech Stack: *Next.js, WebSockets, NestJS*

KEY ACHIEVEMENTS

- Shipped a full-stack Office Management Portal used by 20+ staff, cutting admin time by approximately 30 percent
- Delivered a custom HRMS platform managing 100+ employee records
- Built real-time multiplayer blockchain games with WebSocket synchronization
- Integrated 5+ AI model APIs into a cross-platform mobile app
- Engineered secure role-based authentication across 5 permission tiers
- Worked across FinTech-adjacent HR tools, Web3/Blockchain, SaaS, and mobile applications
